ABOUT ME

I'm a Front-End Web Developer, leveraging my experience working on digital projects with diverse, international teams. I'm fluent in English and enjoy socializing with people from different backgrounds. I am organized, responsible, social, highly competitive, and results-driven, with the ability to learn quickly and lead efforts in the companies/projects I've worked on.

FORMATION

- React.js Course | Platzi
- Web Development Course | Coderhouse
- Professional Course of Git and GitHub | Platzi
- Time Management Course | Platzi
- JavaScript Course | Coderhouse
- ChatGPT Course | Platzi
- Tailwind CSS Course | Platzi
- Basic Programming Course | Platzi
- UX/UI Interface Design | Platzi
- Effective Study Techniques Course | Platzi

HARD SKILLS

- English (C1)
- JavaScript (JS), HTML, CSS, React, React Native
- Git, GitHub, GitHub Copilot
- Notion, Jira
- Slack, Microsoft Teams
- Tailwind, NativeWind
- Figma
- Experience leading Startups
- AI Prompt Engineering

SOFT SKILLS

- Continuous Improvement
- Passion for Learning
- Leadership/Communication
- Problem-solving
- Time management
- Teamwork
- Strong work ethic

HOBBIES

I enjoy practicing contact sports and playing basketball, as well as strategy video games. I'm passionate about personal development and a dedicated reader. I love traveling and attend to tech conferences and hackathons. I'm enthusiastic about contributing to open-source and creating projects from scratch with like-minded people.

EXPERIENCE

First Finalist in the Meta Hackathon

Meta Construyendo el futuro, Mexico City | 2024
Together with a diverse team, we secured first place among the top 5 finalists in META's competitive hackathon. We created "*BluEyes*," a hurricane disaster prevention app utilizing META's latest AI models. I focused on front-end development using React Native, NativeWind, and JavaScript, integrating an AI-powered chatbot and API connections. I contributed significantly to prompt engineering and the accuracy of responses generated by META's newest AI model: Llama 3.2.

NASA Hackathon Participant

NASA Space Apps Challenge, Mexico City | 2024
Collaborated in a global hackathon using NASA's data to develop "*Metaquetzal*," a natural disaster prevention app for Mexico City. Played a key role in front-end development and used various web dev technologies.

Co-Founder / Front-End Developer

Verskod | 2024 - Present

Co-founded Verskod with an international team. I develop and maintain web applications using JavaScript, React, HTML, and CSS. I collaborate with cross-functional teams, leveraging tools such as Git, GitHub, Notion, and Jira, and frameworks like Tailwind. I utilize AI tools like ChatGPT, applying advanced prompt engineering techniques. Additionally, I manage our online presence, ensuring consistent brand communication and visibility.

Bilingual Lead Customer Service Representative

Teleperformance | 2022-2023

Started as a Bilingual Customer Service Representative and was promoted to MET (Member Escalation Team) after 6 months due to my problem-solving skills, effective communication, multitasking, and fluency in English. Managed complex and sensitive customer cases, and mentored new team members, guiding them through high-pressure situations.

Co-Founder of E-Sports team / Coach

N0 C0n3xi0n CR | 2017-2019

Co-founded, along with an international team, one of the top 200 best teams in the game at the time according to the game itself.
